

Notes from online morning tea catch up

29 September 2021

Thanks to those of you who joined us online this morning. It was good to see you.

I've attached our presentation slides and have included some further discussion points below. Please get in touch if you have any questions.

Conference

5-6 November. Get your tickets if you haven't already.

What will Sheds look like in 10 years? How can we ensure they are sustainable and viable and that they their place as a valuable resource both to current and future members, men and their local communities while accommodating changing community needs?

It's going to be a great event.

Find a shed map

Big website improvement going live (probably) this or next week. Our new find a shed page allows each shed to have its own page within our website where you can talk about your Shed and its activities, show photos of work in action. Include contact information, open hours, costs to join/attend. We will also have a filter for people to find different activities. Potentially the best 'find a shed' page out there 😊 but can only be as good as its content.

New Members and developing sheds
